Mounting and fastening plate T350

Item number: 2007886

This mounting and fastening plate gives the options for variable fixing of external components in the junction box. It consists of strip-galvanised sheet steel of a material thickness of 2 mm.

The appropriate fastening holes are drilled into the steel plate for the component that needs to be fixed. Then, the products can be attached onto the sheet with cable ties, screws or similar fastening materials.

Using the screws included in the scope of the delivery, the mounting fastening plate can now be fixed in the appropriate T series (T 250) junction box.
